

From 1997 geologic map by Bender, Rice, Wilhelms, and Greeley (I-2581)

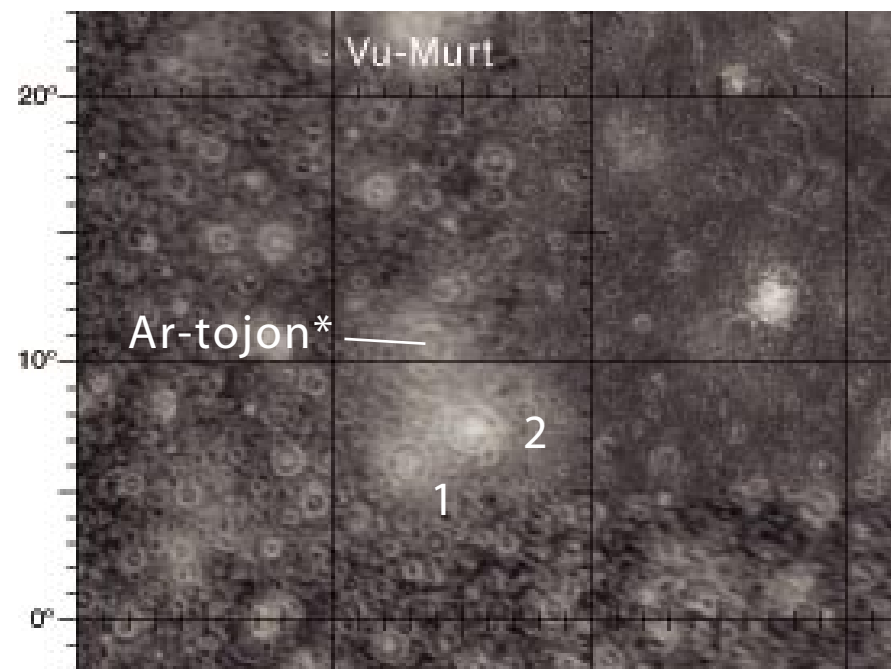

Image on the right is rasterized portion of the Callisto map from our web site (sorry for the fuzzy rasterized text). I have added the name Ar-tojon* to the image and the map, and I have also added the numbers 1 and 2 next to the same craters on the image and the map to help you orient yourself.
